

Notice on Travel Arrangements for Participants of the 2024 International Smart Systems Summit (ISS 2024)

To advance the research progress of the sub-project under the National Key R&D Program on “Coordinated Optimization of Multimodal Perception and Edge Computing” (Project No.: 2023YFB3905602), with approval from the Project Management Office, we are now organizing members of the project team to travel to the U.S. to attend the 2024 International Symposium on Intelligent Systems (ISS 2024). The specific arrangements are as follows:

I. Basic Information about the Meeting

Conference Name: 2024 International Symposium on Intelligent Systems (ISS 2024)

Event Date: July 20–22, 2024

Venue: San Diego, California, USA

Organizer: IEEE Systems Council & University of California, San Diego

II. Participants and Task Allocation

Zhang Ming (Principal Investigator, Professor): Delivered the keynote speech titled “Edge-Aware Federated Learning for Real-Time Sensor Fusion”

III. Itinerary and Accommodation Arrangements

Departure date: July 18, 2024 (Thursday), departing from Beijing Capital International Airport

Arrival and Stay Period: July 19 (Friday) to July 21 (Sunday), 2024, 2 nights in total, with accommodation located near the venue in downtown San Diego.

Return date: Departure on Monday, July 21, 2024

IV. Job Requirements

All attendees must complete registration and submit their presentation materials prior to the meeting.

Accommodation expenses will be covered by the project funds; original compliant receipts must be retained.

Work records, sign-in confirmations, and transportation receipts generated during the meeting must be archived and kept on file for future reference.

This notice takes effect from the date of its issuance.
