

Notice on Dispatching Personnel to Attend the 12th International Neuroscience Symposium in the United States

To all affiliated units and project teams:

In order to track the latest developments in international neuroscience, strengthen academic exchanges between our institute and international peers, and deepen the international cooperation foundation of the key project "Analysis and Regulation of Cognitive Neural Circuits," it has been decided after deliberation that Dr. Zhang Mingyuan, the principal investigator of the project, will be dispatched to the San Diego area of California, United States, to attend the 12th International Neuroscience Symposium.

This symposium is scheduled to be held from July 19 to 21, 2024, and is organized by the Neuroscience Center of the University of California, San Diego. The conference will focus on two major themes: "Early Intervention for Neurodegenerative Diseases and Clinical Translation of Brain-Computer Interface Technology," covering keynote presentations, thematic seminars, poster sessions, and technical workshops, among other sessions.

As the principal investigator of the key project "Analysis and Regulation of Cognitive Neural Circuits" (Project No.: NSF-COG-2024-07), Dr. Zhang Mingyuan's primary tasks for attending the conference include:

1. 1. Representing the project team to deliver an invited presentation at the "Dynamic Imaging of Neural Circuits" sub-forum, reporting the latest phased achievements of the project.
2. 2. Conducting face-to-face project progress meetings with collaborators from Stanford University, Massachusetts Institute of Technology, and other institutions to discuss the joint experimental plan for the next phase.
3. 3. Investigating the latest instruments, equipment, and technology platforms in related fields to conduct preliminary research for the upgrade of the project's experimental platform.
4. 4. Extensively engaging with young scholars in the field to expand channels for subsequent talent recruitment and joint training for the project.

During the conference attendance period, Dr. Zhang Mingyuan's itinerary is as follows:

- July 18, 2024: Depart from China and arrive in the San Diego area, California, United States.
- July 19-21, 2024: Attend all sessions of the symposium throughout the entire period.
- July 22, 2024: After a closed-door discussion with the collaboration partners, depart for return.

This conference attendance complies with the management regulations on international academic exchanges for research personnel of our institute. The related travel and registration expenses will be charged from the project funds in accordance with regulations. Please the project team and relevant departments assist in handling the subsequent matters.

This notice is hereby given.
