

Notice on Commencing the On-Site Survey Work in Washington, D.C. for the "Smart City Data Infrastructure Assessment" Project

To all relevant departments and project team members:

Upon approval by the Project Management Committee, the internationally cooperative project "Smart City Data Infrastructure Assessment" undertaken by our company is about to enter the critical on-site research phase. To ensure the accuracy of data collection and the relevance of solution design, it has been decided to dispatch the project team to the project location — Washington, D.C., United States — to conduct on-site surveys of data nodes and infrastructure at designated areas provided by the client.

This on-site survey is a core component of project execution, aimed at verifying the feasibility of preliminary theoretical models through field visits, data verification, and technical exchanges, thereby providing first-hand information for subsequent detailed design and implementation deployment. The work arrangements are as follows:

I. **Survey Period:** March 10, 2024 (Sunday) to March 14, 2024 (Thursday). Team members are required to arrive in Washington, D.C. on the morning of March 10 and complete all scheduled work before returning on March 14.

II. **Survey Location:** Washington, D.C., United States.

III. **Participating Personnel:** * Project Lead: Zhang Ming * Core Engineers: Li Hua, Wang Wei * Client-side liaison and accompanying personnel (arranged by the client)

IV. **Key Work Items:** 1. Hold a project kickoff meeting with the client's technical team to clarify the scope of on-site work and safety protocols. 2. Conduct on-site surveys and equipment status documentation at multiple data collection points distributed across different functional zones in Washington, D.C., based on the checklist provided by the client. 3. Conduct multiple rounds of face-to-face communication and Q&A sessions with the client regarding preliminary technical proposals. 4. Compile daily survey logs and submit a preliminary on-site assessment report upon completion of the project.

V. **Logistics and Expenses:** 1. Intercity transportation (air tickets), local transportation, and necessary meals during this business trip will be handled in strict accordance with the company's *Administrative Measures for Project Travel and Expense Reimbursement*. 2. All expenses must be incurred in direct relation to project work, and complete, valid receipts (such as electronic itineraries, receipts, etc.) must be retained for subsequent reimbursement.

Please ensure that all project team members complete work handovers and make travel preparations in advance to guarantee the smooth and efficient completion of the survey task.

This notice is hereby issued.
