II. Meeting Background

Boyuan Technology Research (India) Pvt. Ltd. and Vision Tech Solutions Pvt. Ltd. established contact through an industry exhibition in early 2024. Both parties have highly complementary advantages in the fields of artificial intelligence, big data analytics, and IoT technology applications. Following preliminary online communication, both parties decided to hold their first face-to-face cooperation exchange in Faridabad in May 2024 to evaluate the feasibility of cooperation and explore potential cooperation directions.

III. Itinerary Review

May 14, 2024 (Tuesday):

Rajesh Malhotra departed from Faridabad to Gurgaon in the afternoon to conduct preliminary liaison with the two visiting representatives from Vision Tech, introduce our Company's basic information, and confirm the next day's agenda. Transportation expenses for the day have been reimbursed in accordance with regulations.

May 15, 2024 (Wednesday):

In the morning, Rajesh Malhotra welcomed David Chen and Sarah Liu from Gurgaon and transported them back to the Faridabad headquarters. Upon arrival, Dr. Suresh Kumar led the reception team in formally welcoming the guests. The day included company introduction, technical capability demonstration, and cooperation direction discussions.

May 16, 2024 (Thursday):

The morning continued with discussions on the cooperation framework, with both parties exchanging preliminary cooperation intentions. In the afternoon, the clients were arranged to return to Gurgaon by vehicle. Rajesh Malhotra did not accompany them. Transportation expenses for the day have been reimbursed in accordance with regulations.

IV. Discussion Minutes

(1) Company Introduction and Capability Demonstration

Dr. Suresh Kumar first introduced the development history, core business areas, and market layout in India of Boyuan Technology. Mr. Amit Singh then provided a detailed demonstration of the Company's technical achievements in AI algorithm optimization, big data processing platforms, and IoT edge computing.

(2) Cooperation Direction Exploration

Both parties conducted in-depth discussions on the following three potential cooperation directions:

1. Joint R&D of an intelligent data analytics platform based on artificial intelligence;
2. Technical cooperation in the field of IoT data collection and processing;
3. Joint development of industry solutions for the Indian and Southeast Asian markets.

(3) Resource and Capability Complementary Analysis

David Chen introduced Vision Tech's advantages in cloud computing infrastructure and customer channels, which form a good complement with our Company's advantages in algorithm R&D and technical talent. Sarah Liu explained the project management processes and quality control standards.
