

2021 Middle East Strategic Partnership Appreciation Week & Business Gift Preparation Plan

I. Project Background

In accordance with the Group's Overseas Business Division annual marketing plan, our company intends to hold a one-week "Middle East Strategic Partnership Appreciation Week" event in Alexandria City, Egypt, from September to October 2021. This event aims to strengthen daily communication with local distributors and core major clients, and enhance brand affinity. Unlike previous large-scale summits, this event is positioned as "lightweight, simple, and high-frequency," achieving in-depth customer relationship maintenance through site visits, small-scale tea receptions, and customized gift distribution.

II. Event Arrangement

1. Timeline:

- Material procurement and gift customization phase: Early September 2021.
- Official event execution phase: Mid-September to mid-October 2021.

2. Event Location:

- Alexandria City, Egypt (primarily including temporarily leased offices at local cooperation parks and partner company premises).

3. Core Activities:

- Customized business gift preparation: To demonstrate brand sincerity, we plan to customize a batch of sportswear and casual footwear with corporate cultural elements for the core team members of our partners. Additionally, in line with the company's pragmatic approach, basic cleaning tools and environmental decoration materials will be included in the gifts.
- Thank-you card distribution: Each gift must be accompanied by a hand-written thank-you card expressing sincere gratitude for the long-term cooperation.

III. Materials Preparation Plan: Business Gifts

The plan proposes to procure a batch of highly versatile apparel products as the gift base, with corporate logos applied afterwards. Preliminary selection:

- Customized athletic shoes (Shoe Series): Must be comfortable, with styles suitable for both business and casual wear.
- Customized collared tops (Polo Series): Breathable fabric selected to adapt to the September–October climate in Alexandria City.
- Branded cleaning supplies (mops, buckets, etc.)
- Purchase quantity: Based on the invitation list, the first batch will prepare approximately 10 sets (including shoes and tops), with additional quantities available depending on on-site feedback.

IV. Personnel Responsibilities

- Khwarizmi Muhammad, Materials Specialist (General Staff): Responsible for specific physical procurement, receipt retention, and gift distribution.

V. Remarks

This event invites senior government officials or industry leaders; it is imperative to ensure that the gifts are of high-grade and exquisite quality. All procurement activities must strictly follow local market prices and complete all physical warehousing before the event begins.
