

POLARIS ENERGY TECHNOLOGY RESEARCH INSTITUTE

External Expert Invitation and Reception Approval Form

Research Project Management Department

Doc.No.: PRI-2012-EXT-039-AP

Application Date: September 18, 2012

POLARIS ENERGY TECHNOLOGY RESEARCH INSTITUTE**External Expert Invitation and Reception Approval Form**

Research Project Management Department | Doc.No.: PRI-2012-EXT-039-AP | Application Date: September 18, 2012

I. Basic Application Information

Applying Department	Research Project Management Department	Applicant	Zhang Weiqiang (Tel: Extension 8235)
Application Matter	Inviting external experts to conduct project technical consultation at our institute		
Related Project	Advanced Reservoir Characterization and Enhanced Oil Recovery Technology Research (Project No.: PRI-2012-RES-015)		
Project Leader	Wang Zhihua		

II. Invited Expert Information

Expert Name	Dr. Brenda Allbright	Gender	Female	Nationality	Canada
Full Affiliation	Alberta Energy Research Alliance				
Institution Address	Edmonton, Alberta, Canada				
Title/Position	Senior Research Fellow	Research Direction	Reservoir Engineering, Enhanced Oil Recovery Technology, Unconventional Oil and Gas Development		
Contact	b.allbright@albertaera.ca				
Cooperation Relationship	In October 2011, was invited to conduct technical consultation for the project mid-term review at our institute, established a good cooperative relationship with the project team, and the consultation results were highly recognized.				

III. Detailed Invitation Reasons

In the process of advancing this project, the following key technical stages have encountered bottlenecks and urgently require external expert guidance:

1. Precision optimization of multi-scale grid coupling methods in reservoir numerical simulation;
2. Parameter calibration methods for chemical flooding technology under high-temperature and high-salinity reservoir conditions;
3. Systematic evaluation of development strategies for unconventional oil and gas resources (tight oil, shale gas).

Dr. Brenda Allbright possesses internationally leading academic standards and rich engineering practical experience in the above research fields. She also gained an in-depth understanding of this project in 2011 and can quickly get into the core technical issues. Upon recommendation by the project team and deliberation by the Research Project

Management Department, we hereby apply to invite this expert to conduct a one-week technical consultation activity at our institute.

IV. Visit Time and Location

Visit Time	October 14 to October 19, 2012 (6 days and 5 nights)
Visit Location	Houston, Texas, USA

V. Reception Arrangements

(1) Accommodation

Executive-level guest room accommodation will be arranged at our institute's contracted cooperative hotel, with 5 room nights (October 14 to October 19). Reasonable incidental expenses incurred during the stay (including in-hotel dining, parking, etc.) will be calculated together with the room rate and reimbursed uniformly.

(2) Transportation

1. Airport pickup service on October 14;
2. Airport drop-off service on October 19;
3. Full transportation support during the on-site inspection on October 18;
4. Valet parking and parking fees during the visit period.

(3) Catering

1. Lunch on workdays (October 15 to 19) will be uniformly arranged within the institute;
2. Other meals will be arranged by the expert independently and reimbursed according to travel standards.

VI. Expense Category Description

This reception involves the following expense categories. All expenses will be based on actual amounts incurred and reimbursed with compliant invoices:

1. Accommodation expenses: Including room rate and reasonable incidental consumption within the hotel (dining, parking, etc.), reimbursed together;
2. Transportation expenses: Including valet parking fees;
3. Catering expenses: Workday lunches and other meal expenses executed according to standards;
4. Other expenses: Reasonable expenditures approved through the approval process.

VIII. Approval Comments

Department Head Opinion

Dr. Allbright is an internationally renowned expert in the key technical field of this project. She successfully conducted consultation at our institute in 2011 with significant results. This invitation is of great importance to project advancement. The reception arrangements are reasonable. The application is approved.

Signature: Liu Mingyuan

Date: September 19, 2012

Responsible Institute Leader Opinion

Approved for invitation. The Research Project Management Department is requested to ensure reception support and technical preparation work to ensure that this technical consultation achieves substantive results.

Signature: Chen Jianguo

Date: September 19, 2012

Finance Department Opinion

The expense categories and reception standards comply with our institute's relevant management system. Approved for execution in accordance with the travel and business entertainment expense reimbursement system. Reimbursement must be accompanied by this approval form, work plan, and compliant invoices.

Signature: Zhao Haiyan

Date: September 20, 2012

President Approval

Approved. All departments are requested to actively cooperate and ensure the various tasks for the expert's visit.

Signature: Li Zhenghua

Date: September 20, 2012

Remarks: This approval form is in quadruplicate, with one copy each retained by the Research Project Management Department, Administrative Affairs Department, Finance Department, and Institute Archives.
