

General Reimbursement Policy for Research Project Support

This policy outlines the requirements for reimbursing administrative support and overtime meal expenses across all regional research sites.

I. Expense Definition

Eligible expenses include "Overtime Meals and Office Refreshments" required for research continuity. This covers meals, beverages, and delivery-related fees from local vendors. All expenditures must be directly linked to documented project work hours.

II. Geographic and Temporal Requirements

Vouchers must reflect the specific city of the research site (e.g., Brownsville) and occur within the designated project cycle (e.g., April 2016). Receipts must be machine-printed and clearly dated.

III. Submission and Review

Applicants must submit original receipts along with a verified Overtime Log entry. The Finance Department will cross-reference the receipt date and location against the approved project schedule and site registry before disbursement.
